**Power your
career progression
with RegPM™
certification**

The ultimate certification for project management professionals

Our Registered Project Manager (RegPM™) certification program formally recognises your capability and experience, giving you the leading edge at every stage of your project management career. It provides a benchmark of excellence for project professionals across Australia.

Why become certified?

By becoming registered with our RegPM™ certification program, you will:

Be recognised for your skills

Demonstrate your capability to deliver project outcomes at a certain level.

Give yourself a competitive edge

RegPM™ certified project professionals in Australia earn a median salary 14% higher than those without RegPM™ certification, according to AIPM's most recent Project Management Salary Report Australia.

Empower your career growth

Drive your career forward with the confidence to achieve project goals.

Leading Australia's project management community

Project management is rapidly growing in Australia, with jobs expected to grow by 6.2% in the next five years (source: LMIP), and is radically transforming the way we do business. It is no longer just a job title, but fast becoming an essential skill in all professions. At the forefront of corporate change, growth, and innovation, the industry contributes close to 30% of Australia's GDP. Now more than ever before it is important to have knowledgeable and competent project managers driving this change.

Who are we?

The Australian Institute of Project Management (AIPM™) engages, educates, and advocates for the project profession in Australia. We drive thought leadership and performance in the project arena by bringing people and ideas together for project success.

We exist to lead and represent the project profession in Australia; creating a community and ecosystem that enables project success and the professional advancement of our members.

RegPM™ certified members

AIPM's RegPM™ certification levels are the utmost recognition for project management professionals.

Which certification level is right for me?

Certified Practising Project Practitioner (CPPP™)

For team members who work on projects, contribute to project plans and participate in team meetings. This program is right for you if you're currently under the direction of a project manager or director, and are applying project management skills, such as scoping, timing, quality, and monitoring.

Eligibility for CPPP™:

- Do you have a moderate level of knowledge about professional practices and knowledge in project management? Do you contribute to the management of projects?
- Are you involved in planning, monitoring and controlling across each of the following management areas: scope, time, and quality?
- Do you assist in the development of other parts of project plans? Do you contribute to project monitoring and control activities? Can you provide documentary evidence of this work from the past three years?

Price: \$1,846.18

Certified Practising Project Manager (CPPM™)

For project managers who plan projects, manage teams and implement projects in consultation with higher authorities. If you are directly accountable for the management of projects in your present role, including initiation, planning, execution, monitoring, controlling, and finalisation, this certification program is right for you.

Eligibility for CPPM™:

- Do you have a solid and broad understanding of professional practices and knowledge in project management? Are you directly accountable for the management of projects in your present role?
- Have you been directly accountable for the management of at least two projects during the last three years?
- Do you develop management plans for all stages of the project lifecycle? Do you establish and utilise project management controls (e.g., WBS, schedule, budget, risk and issues registers, change registers, etc.)?
- Do you monitor and control projects against approved management plans and project management controls? Can you provide documentary evidence of this work from the past three years?

Price: \$2,478.08

Six simple steps to becoming certified with RegPM™

1. Join AIPM™

Access to our RegPM™ program is available only to full AIPM™ members. Non-members can apply for membership and certification at the same time.

2. Apply for RegPM™ certification

If you're an AIPM™ member and do not currently hold RegPM™ status, please apply for certification on our website.

3. Assign an assessor

Your RegPM™ certification requires a formal assessment of your capabilities and experience. AIPM™ will allocate an assessor for you to conduct your assessment.

4. Complete your assessment

You will be required to answer questions and gather evidence to document competency at the level applied for. Your completed assessment record book must be submitted to your assessor within six months of your application date.

5. Your assessment report is submitted

After assessing your submission and holding an interview with you, your assessor will recommend the outcome of your application.

6. Your RegPM™ certification is complete

If successful, your name will be placed on our online register of certified project professionals. You'll also receive a certificate of registration which is valid for three years.
